

# Charlie Landsborough, Like I Used To Do

There was a time when we'd be the last to leave  
Watching the sun come up as everyone failed to see  
The music was always loud and I'd smoke and drink too much  
Till I fell into your arms into your loving touch  
Now as the years roll by time has reeled me in  
Slowed down a notch or two from the way things were then

Those old ways of mine I left them behind  
Those crazy days are thru  
The only thing I still do like I use to do  
Is carry this torch for you

Do you remember when we packed our bags and run  
Chasing some crazy dream into the morning sun  
Now as the twilight falls I find I'm satisfied  
Watching the fire glow just as long as you're by my side  
You're in my heart it seems time has passed me by  
I love you as much today if very first time

Those old ways of mine I left them behind  
Those crazy days are thru  
The only thing I still do like I use to do  
Is carry this torch for you

Music

I still watch her the way that I wanted you then  
If I could do it all over I'd do it all over again  
Those old ways of mine I left them behind  
Those crazy days are thru  
The only thing I still do like I use to do  
Is carry this torch for you  
The only thing I still do like I use to do  
Is carry this torch for you
