

# Charlie Winston, Soundtrack To Falling In Love

He :

All of me

You found your way to all of me

And, helplessly, I've fallen like a child

Hopelessly, I'm hoping you're the one for me

You comfort me

With every certain smile

But we have only just begun

Still so much for us to learn

Give and take ; let's take our time

Taking turns in touching

Nowhere that I'd rather be

Than with you making history

Close your eyes ; I'll close mine

And learn to love you

She :

All of me

You found your way to all of me

And, helplessly, I've fallen like a child

Hopelessly, I'm hoping you're the one for me

You comfort me

With every certain smile

Both :

But we have only just begun

Still so much for us to learn

Give and take ; let's take our time

Taking turns in touching

Nowhere that I'd rather be

Than with you making history

Close your eyes ; I'll close mine

And learn to love you

No one needs to know

If we chose to run away far from here

H: No one cares

S: But we have only just begun

H: for each other here

S: Still so much for us to learn

H: And no one shares

S: Give and take, let's take our time

H: words we need to hear

S: Taking turns in touching

H: We take what we want

S: Nowhere that I'd rather be

H: And turn our backs on it all

S: Than with you making history

H: Life is sweet

S: Close your eyes ; I'll close mine

H: Cause we've got it all

S: All of me

H: But who knows love

S: You found your way to all of me

H: as necessity ?

S: An helplessly

H: And who knows

S: I'm falling like a child

H: fear as reality ?

Him :

It's all mixed in the highstreets shops

Where you think you're smart cause the price is cut

But two for one never means too much

Cause it's all on tap and you're in the clutch

Of society boasting "beautiful"

With the guarantee it's ephemeral

You can see right through

It's not made to last  
It's a precious lie  
With a heart of glass.
