

Chemia, Fun Gun

You give me gun
let's dig out some fun
before we can realize

My sorrow
it's nothing new
but here is a clue
i know, i'm gonna share it
redemption
lay down, stay cool
creep down play the fool
i'm sure you gonna need it

butterflies on my thumb
they will lead me
I will do that just because i can
butterflies in my eye
singing for me
No they will set you free
and no more lying

Wait for final
Pray for your life
Justice I know
Day is over

your tv, ____
loves my face
strength and grace
I know you're gonna need me
but i'm nothing
and there is more
close the show
come on, let's go to kill me

butterflies on my thumb
they will lead me
I will do that just because i can
butterflies in my eye
singing for me
No they will set you free
and no more lying

Wait for final
Pray for your life
Justice I know
Day is over
/2x

butterflies on my thumb

I will do that just because i can
butterflies in my eye
singing for me
