

Chemia, Generation Zero

I think I lost my faith
That's ok - they said to me
You don't leave this voice inside your head
Focus on your game
?

Don't care what's the point
That's real, that's the word
And nothing for me again
And nothing for me to the end

I think I lost my empathy
I think I lost my anger
That's real, that's the word
And nothing for me again
And nothing for me to the end

I think I lost my empathy
I think I lost my anger
Everything no authority

(poprawcie, please)
