

Chemia, Gotta Love Me

There's something wrong with me
Every time you lie
I give in (?)
Another try
Why don't you believe in me
Use me, suck me dry
Everything is alright

She said to me:
She'll set me free
You gotta gotta love me
You gotta gotta love me here
The way to please
To make me bleed
You gotta gotta love me
You gotta gotta love me here

Finally you don't know nothing
Another need of (?)
A madness of the last dance
Maybe I'm too good for you?
I not the only line
Can you feel your (??)

She said to me:
She'll set me free
You gotta gotta love me
You gotta gotta love me here
The way to please
To make me bleed
You gotta gotta love me
You gotta gotta love me here
