## Chemia, Gotta Love Me

There's something wrong with me Every time you lie I give in (?) Another try Why don't you believe in me Use me, suck me dry Everything is alight

She said to me:
She'll set me free
You gotta gotta love me
You gotta gotta love me here
The way to please
To make me bleed
You gotta gotta love me
You gotta gotta love me here

Finally you don't know nothing Another need of (?) A madness of the last dance Maybe I'm too good for you? I not the only line Can you feel your (?)?

She said to me:
She'll set me free
You gotta gotta love me
You gotta gotta love me here
The way to please
To make me bleed
You gotta gotta love me
You gotta gotta love me here
