

# Chemia, Let Me

In my eyes  
Everyone try to be someone new  
Everyone love is the only true  
Everyone knows more that's all they says  
In my eyes  
Silence is a sign in a

...  
Give from the heart  
That's so many colors  
But all they say is all the same

So let me breath  
When I'm still here on my own ...  
Don't mess around  
I go, where I want to go

Weak has guns  
And we know their fault

...  
Difference and .. is all I say

So let me understand  
The quality of soul  
I don't believe in heaven  
... it's a mission  
To carry out my  
To carry out my  
To the day I begun

So let me breath  
When I'm still here on my own ...  
Don't mess around  
I go, where I want to go  
So let me breath  
When I'm still here on my own ...  
Don't mess around  
I go, where I want to go  
Far away  
Far away  
Far away
