

Chenoa, Love Story

So you said gonna give it all
that you'd never ever hold back on me
but i've been feelin' kind of all alone
did you forget about our love story.
It said boy meets girls and falls
in a never ending kind of love
and it seemed like they just couldn't be
around each other enough.

But then chapter three
some thing happened to the love story.
(And) everything seemed out of place
afraid the past would be erased
couldn't find ther way to go.
Got lost and didn't know
that she could trust him whit her art
that he could trust they'd never apart.

Come on boy don't see
there's no place I'd rather be.
Look in my eyes.You know that I'm right
this is our love story.
Just have faith,believe
you know I'll always be.
Here by your side,making' it right
this is our love story.

Now don't be thinkin' It's a waste of time
when every little thing don't go your way
the world don't stop inside.
Gotta make it strong every day
cause the only thing that's gonna last
the only thing tht's worth the wait.
Is keepin' it real when you're all fed up
boy you know i wanna say.

Don't nobody want to pain
even though sometime come your way
but the truth is if you give respect.
I'll make sure that you gonna get it back
and if it hurt like hell inside
and you need a place to hide
then come to me,come to me
we will survive.

Come on boy don't see
there's no place I'd rather be.
Look in my eyes.You know that I'm right
this is our love story.
Just have faith.Believe
you know I'll always be.
Here by your side,making' it right
this is our love story.
Come on boy don't see
there's no place I'd rather be.
Look in my eyes.You know that I'm right
this is our love story.
Just have faith.Believe
you know I'll always be.
Here by your side,making' it right
this is our love story.

Look in my eyes,this s our love story.

Come on boy don't see
there's no place I'd rather be.
Look in my eyes. You know that I'm right
this is our love story.
Just have faith. Believe
you know I'll always be.
Here by your side, making' it right
this is our love story.
