Cher, Don't Hide Your Love

You never give yourself completely It's just that you've been hurt before You're so afraid to let me love you You never leave an open door Don't judge me by some other lover Who broke your heart and walked away Come let's be fair with one another My world is yours I swear it Say the word and we can share it

[Chorus:]
Don't hide your love
(Don't hide your love)
Not if you care for me
(Not if you care for me)
It isn't fair for me
To worry and wonder and wait
Don't hide your love
(Don't hide your love)
Just love me here and now
(Just love me here and now)
We'll work it out somehow
Don't you keep us apart
Baby unlock your love

Well I now the past has bought you sorrow The clouds still hang around today But don't let the rain, fall on tomorrow Baby we can make it together 'Cause I'm gonna love you forever

[Chorus]
