

Cher, Fast Company

You know you love your man
Two hundred miles an hour
Drinking up the fumes
And you're never more alive
When you feel his power
You gotta have it today
Cause a woman gets hot
You're racing for the man in the cloak
Ah you're living your life on fire
You see, but it's out of bounds company

[Chorus:]

(Fast company)
I with the lights, heart beats
Dancing to the music
Lord I just burst into fire
No wonder I can't sleep
I got a feeling today
I wanna get all hot
All my dreams explodes with a shot
Lord I'd be living
My life on the Caribbean Sea
But it's out of bounds company

(Fast company)

You see you're on the way to come
You say you're one your way to go
Baby the heart's speaking paradise
But you - Help me
Get your big life
Fast company

[Chorus]

(Fast company)

You see you're on the way to come
You say you're one your way to go
Baby the heart's speaking paradise with me
Fast Company
