Cher Lloyd, Grow Up (feat. Busta Rhymes)

We ain't ever gonna grow up We just wanna get down Tell the DJ turn it up real loud No we'll never grow up And if we had our way We would do this everyday

I got a flow that'll make you drop
I got a flow that'll make you pop
I got a flow that'll make your mother and your father call the cops
We're gonna make this thing go blow, we're gonna system overload.
We're gonna be the generation that makes everything explode!

And I when I say explode I don't mean that we using bombs We doing stuff that we don't ever have to tell our moms Love the stuff we got it, We got it all up in the room Paper chasing, yeah we got it everything we want

Somehow, some way We're gonna have it our way We don't give a what, what you say No we don't

We ain't ever gonna grow up
We just wanna get down
Tell the DJ turn it up real loud
No we'll never grow up
And if we had our way
We would do this everyday

We ain't ever gonna grow up
We just wanna get down
Show everybody who runs this town
No we'll never grow up
And if we had our way
We would do this everyday

Do ya, do ya, do ya know what I mean I'm a princess, I don't wanna be the queen Please don't say, I think Mr Bean Every time you're talking, it makes me wanna scream

I don't know what you heard 'bout me Don't remember holding out my pinky I'm gonna finish off these MCs Like they were my cup of tea

I got a flow that'll make you drop I got a flow that'll make you pop I got a flow that'll make your mother and your father call the cops

Somehow, some way We're gonna have it our way We don't give a what, what you say No we don't

[Chorus]
We ain't ever gonna grow up
We just wanna get down
Tell the DJ turn it up real loud
No we'll never grow up

And if we had our way

We would do this everyday

We ain't ever gonna grow up
We just wanna get down
Show everybody who runs this town
No we'll never grow up
And if we had our way
We would do this everyday

(Cher let me take it from here!)

[Busta Rhymes] Bullseye again I got 'em in a target Put 'em in a pocket Put 'em on a market That's the way we did You can see the way I walk and I talk Every time I show her what I got I'm sprung, I don't want to grow up Forever young Why I don't ever wanna leave you Better believe me, trust me She is the one Gonna make all the people Got up in the hard papers Wanna hear it that Are we gonna dump like this Leaning bend the body on the run And then they gotta turn and twist I guess it's time for pictures in my closet I can do this to the infinity

We ain't ever gonna grow up
We just wanna get down
Tell the DJ turn it up real loud
No we'll never grow up
And if we had our way
We would do this everyday

We ain't ever gonna grow up
We just wanna get down
Tell the DJ turn it up real loud
No we'll never grow up
And if we had our way
We would do this everyday

We ain't ever gonna grow up
We just wanna get down
Show everybody who runs this town
No we'll never grow up
And if we had our way
We would do this everyday
