

Cher, Say The Word

My love's imagination is a-running wild on you
And I reveal the desperation
Of not knowing what to do
Don't know enough about you
The words are hard to find
Can't think a life without you
It's messing up my mind

[Chorus:]
Say the word
And I'll be there right by your side
To keep our love alive
Together we will survive
If you just

[Chorus 2:]
Say the word
No matter where, I'll fight the tide
Of people who just don't wanna see
The love of you and me

My love's infatuation keeps carrying me away
Do I sense anticipation with everything that you say
Well I wonder: should I doubt you?
When you make things so unclear
Why can't ya say "I love you"?
That's all I wanna hear

[Chorus]

[Chorus 3:]
Say the word
And I'll declare time won't divide
Two people who just wanna be
In love eternally

[Our love is free]
I just know it when I hold you in my arms
When you show me that you love me when you smile
If you love me why do you back away?

Ooh, if it's real let me know when you hold me in your arms
And I'll show you that I loved you all the while
Say you love me, and I'll never back away

[Chorus]
[Chorus 3]

Just say the word
Just say the word

I'll be there right by your side
To keep our love alive
Together we will be together
We will survive
