

Cheryl Cole, Let You

you don;t understand the chance
I took on you
I gave you loyalty, you were all you need yeah
now you're selective with your affection
what did I do
so if "love you" was come through

see for a moment
I forgot I had a voice
so I am tellin' what you're
about to lose
Coz you don't understand the chance
I took on you
baby you should know that it might
I think we only got like this cause I let you
only got like this cause I let you, let you

you only got this
coz i let you
only got with this
coz i let you
let you put your hands on my body
every time
I give you what you wanted
but when am I gonna get mine?

cause, we only gonna like this
coz I let you

see i am not afraid say "it's my fault"
I was passive, you took advantage
see you draw your line
but I never drew my one
baby

baby you should know that it might
I think we only got like this cause I let you
only got like this cause I let you, let you

you only got this
coz i let you
only got with this
coz i let you
let you put your hands on my body
every time
I give you what you wanted
but when am I gonna get mine?

cause, we only gonna like this
coz I let you

every time that I held back
made a road for my own back
I let you lead me down the wrong track
now I've gotta own that
I every time that I held back
made a road for my own back
I let you lead me down the wrong track
now I've gotta own that

you we only got this
only got this
coz i let you
only got with this

coz i let you
let you put your hands on my body
every time
I gave you what you wanted
but when am I gonna get mine?
