

# Chiasm, X-Ray

What's inside me?

A part of me awakes  
To light that shines against  
The knowledge that we break  
And as you tear it down  
I see the truth  
That binds your answer's frown

What's inside me?

I see what you can't find  
I see what you can't find  
I see what you can't find  
I see what's inside me

What's inside me?  
What's inside me?  
What's inside me?  
What you can't find  
What's inside me?  
What's inside me?  
What's inside me?  
What you can't find

(What you can't find  
What's inside me?)

I see you walk away  
I cannot share the fate that I have seen  
I know that what's to come  
Is not so far away  
And love is seen  
Beyond the answers laid in front of me  
Another way to see  
The path that leads me in my dreams

I see what you can't find  
I see what you can't find  
I see what you can't find  
I see what's inside me

What's inside me?  
What's inside me?  
What's inside me?  
What you can't find  
What's inside me?  
What's inside me?  
What's inside me?  
What you can't find

What you can't find  
(I see)  
What you can't find

I see what you can't find  
I see what you can't find  
I see what you can't find  
I see what's inside me

And here I wake to be embraced by love inside  
Now I cannot hide  
Now I cannot hide  
You've grasped until you breached

All the light is gone  
And waked before the night had dawned  
Ponder my mind alone  
Now I can see beyond your throne

I see what you can't find  
I see what you can't find  
I see what you can't find  
I see what's inside me

What's inside me?  
What's inside me?  
What's inside me?  
What you can't find  
What's inside me?  
What's inside me?  
What's inside me?  
What's inside me?  
What you can't find
