

# Chinchilla, Take No Prisoners

Tales our parents told, we place in our hearts  
Over our history an' our bloody sacrifice past  
'Cause we never forget your terror an' crimes  
Now this is the place, it's your payback time  
Every new day our faith is growing up  
The evil raging force will take now control  
The calm is gone, the tempest has begun  
Chaos all around, the almighty destruction will come  
Take no prisoners  
Stand all together then we never die  
Take no prisoners  
In the name of God and against their crimes  
Take no prisoners  
So we all must kill this fucking bunch of hounds  
Take no prisoners, take no prisoners  
The blind stupid belief, makes our minds mad  
The angel of death took us to the slaughter  
My brothers are killed, they will never come back  
And again in wrong believe, we march for the battle  
Take no prisoners  
Stand all together if we want to survive  
Take no prisoners  
In the name of God and our always coming hate  
Take no prisoners  
So it starts all again, kill this fucking bunch of hounds  
Take no prisoners, take no prisoners
