

# Chk Chk Chk !!! , Californiyea

It's been a while since you've seen that sunshine  
She asked me why and I said trouble on my mind  
That ain't right, that ain't right  
She said, "There's trouble everywhere  
There's trouble all the time  
You're always looking for something you'll never find  
That ain't right, that ain't right"  
But I been up and down the 101, the 5, the 99  
At least I know that it ain't there  
And that's why I left it behind  
That ain't right, that ain't right

California's in my heart  
Though currently it's torn apart  
But I'll make it back there someday  
If I have my way

She said, "How could you leave that Pacific Ocean true  
Ain't no one over there who knows you like I do  
That ain't right, that ain't right"  
But that's just it, we know it too well  
You don't see the view  
When you know it too well  
Sometimes you forget it's blue  
That ain't right, that ain't right  
Now I miss California almost as much as I miss you  
But why would I live somewhere  
Where the bars close at 2?  
That ain't right, that ain't right

California's in my heart  
Though currently it's torn apart  
And if you've ever seen it  
Then you know what I mean  
California's in my mind  
Not just now, but all the time  
But I'll make it back there someday  
If I have my way

I miss Sac and I miss the Bay  
(Ain't that right)  
I miss Fresno, and I miss L.A.  
(Ain't that right)  
And I miss the Yuba River in the summertime  
(Ain't that right)  
And you know I miss those girls so fine  
(Ain't that right)  
But I hope to make it back some day  
(Ain't that right)  
If I have my way  
(Ain't that)  
And if you've ever seen it
