

# Chris Brown, Love Music

I got my keyboard  
Symbols all ready  
Pull up the strings  
And leave the bottom all heavy  
Palms all sweaty  
This feels like a dream  
Little excited, you know what I mean girl  
Girl I'm in need for a woman that can play  
Knows how to turn it up loud  
Anytime of the day  
Take my cd and baby press repeat  
It aint no need to speak  
Just let it play  
Well you got my attention now  
I can't let you down  
Your lyrics and your sound  
Imagine me and you  
What we gon do(just listen)  
But wait before the break down  
Lets listen to some love music(love music)  
Lay back and just let it spin  
This music is your friend  
Lets listen to some love music(love music)  
Nobody has to know  
Lets listen to some love music(love music)  
Can't wait to get this party started  
I'll hit the switches  
Let me remix it  
(Sit back)and listen to some love music  
Turn my mic up  
Can you loop it now  
From the rythm of the track  
And it aint gon change  
The tempo stays the same  
Let it flow through the music now  
And I just want to see you smile  
Now forgetabout what it is  
So baby take my cd yeah  
And baby press repeat  
It aint no need to speak  
Just let it play  
Well you got my attention now  
I can't let you down  
Your lyrics and your sound  
Imagine me and you  
What we gon do(just listen)  
But wait before the break down  
Lets listen to some love music(love music)  
Lay back and just let it spin  
This music is your friend  
Lets listen to some love music(love music)  
Nobody has to know  
Lets listen to some love music(love music)  
Can't wait to get this party started  
I'll hit the switches  
Let me remix it  
(Sit back)and listen to some love music  
Don't matter what the record is  
Anytime it plays girl  
My heart skips a beat  
I feel it in my soul  
I'm about to over load  
It's takin control of me  
We're the perfect harmony

Lets just keep the speakers blasting  
And I wont stop(I wont stop)  
Til we burn out together  
Lets listen to some love music(love music)  
Lay back and just let it spin  
This music is your friend  
Lets listen to some love music(love music)  
Nobody has to know  
Lets listen to some love music(love music)  
Can't wait to get this party started  
I'll hit the switches  
Let me remix it  
(Sit back)and listen to some love music  
Love love music  
Love love love music(love music love music)  
Love love music  
Love love love love music(love music love music)
