

Chris Brown, Summer Too Hot

I blew it all on her
I get it right back
She put it all on me
I couldn't fight back
She love when I pull on it when its tied back
You know its hard to get up out it I get side tracked

Shake something
Left right
Control it
You know who to call if your horny
Right on it
Green light me (green light , green light)

Why'd you tell your friends that you really don't dance (don't dance)
But I know that you can
Fucking up your plans when you bout to get nasty
Get a hold of them glasses

Summer too hot bout to fuck it up
Is the mood right is it wet enough
I gotta do right
Its a level up
Let me wet it up
Just a few times
Summer too hot
Had to double up
Shawty too fire with the bubble butt
We should both slide on the regular
Summer too hot
Its irregular

Shorty she discreet she don't want her business in the street
Be my little secret baby be my little freak
Ahhh we can on the weekend
Do something different got my attention
Eight figures fucking with a rich n**ga
Big picture more than just a night wit cha
Don't switch up girl when the lights hit ya
Them diamonds gonna dance

Why'd you tell your friends that you really don't dance
But I know that you can
Fucking up your plans when you bout to get nasty
Get a hold of them glasses

Summer too hot bout to fuck it up
Is the mood right is it wet enough
I gotta do right
Its a level up
Let me wet it up
Just a few times
Summer too hot
Had to double up
Shawty too fire with the bubble butt (girl we should both)
We should both slide on the regular
Summer too hot
Its irregular

Oooohhhh
I wanna get this rocket off the ground babe
Oooohhhh
You're so beautiful its hard to behave
Oooohhhh

I can't start this fire without your flame
Oooohhhh
And I know you feel the same

Come on, take that shit off

Summer too hot bout to fuck it up
Is the mood right is it wet enough
I gotta do right
Its a level up
Let me wet it up
Just a few times
Summer too hot
Had to double up
Shawty too fire with the bubble butt (girl we should both)
We should both slide on the regular
Summer too hot
Its irregular
