

# Chris Brown, Time To Feel

A Material girl,  
In her own world,  
Cant even see the things shes missing,  
Body in the curve, a little girl, wanting to grow up and be a star  
Take a look around  
They aren't looking down  
All these things have blurred your vision  
Material things don't out run to nothing  
But I know how you feel  
Its hard to see you s?  
It takes time  
Living in a world when you don't know who's to trust  
Makes time  
Slow it down there ain't no bill you have to rush  
It'll be fine  
Takes time  
Takes time  
To love  
[Time To Love Lyrics On <http://www.elyricsworld.com/> ]  
And now i'ma tell the truth, when it comes to you my lady  
And its a Miracle  
You have found the conchence baby  
I had a plan on leaving  
You came and gave a reason  
And now I know the reason why  
But I know how you feel
