

Chris Rea, Deep Water

All change on then merry go line
Everybody looking for a sign
Jumping up and down when the switch goes on
Nobody knows where it's coming from

I'm here watching, keeping well away
Oh I'm gonna live it in my own way
Singing no mister, not me
I'm staying here with guys on free
In deep water

I see a captain on a distant shore
He's got a dream, he wants to make it law
He's got my number, he's got a plan
He try to get you any way he can
Wants to own everything he sees
While I'm here, well he ain't with me
Singing no mister, no way
I got my own deep water
Deep, deep water
