

# Christina Aguilera, Without You

Woah woahh

Have I been blind?  
For the first time in my life I feel I've opened up my eyes  
Since you've arrived like an angel from the sky  
I'm on a spiritual high

So don't you ever go away  
I could never face  
Losing you would give my faith  
In a higher place

What kind of world  
Would it be without you  
I couldn't breathe without you here  
What kind of world  
Would I see without you  
I can't dream without you here

Yeah woah yeah

Beautiful boy  
How on earth did I do something worth deserving you?  
My better half  
How I cherish through and through every part of you  
I do

Loving you's made me hope  
Now I belong  
I found my heart  
Promise me we'll always stay  
The way we are today

What kind of world  
Would it be without you  
I couldn't breathe without you here  
What kind of world  
Would I see without you  
I can't dream without you here

Hey-yeah

I can't ever imagine  
If this never would happened  
I thank God everyday  
Almost lost you forever  
But I always remember (remember)  
That you're my saving grace

What kind of world  
(what kind of world)  
Would it be without you  
(oh without you)  
I couldn't breathe without you here  
(ohh here)  
What kind of world  
(what kind of world)  
Would I see without you  
(oh see without you)  
I can't dream without you here  
(dream without you here)
