

# CHVRCHES, Bury It (ft. Hayley Williams)

Cover up, cover up, cover up that you're ruthless  
Nobody, nobody, nobody's ever gonna notice  
And I am catching up and I am seeing red  
How about I prove I'm right and raise it overhead?

I never promised you anything I couldn't do  
We tried to bury it and rise above, bury it and rise above  
You, you, you never promised me you were seeing differently  
Bury it and rise above, bury it and rise above

You, you  
You bury it, bury it, bury it and rise above /2x

Reaching, reaching for, reaching for my resistance  
Nobody, nobody, nobody sees it at a distance  
And I am catching up and I am seeing red  
How about I throw my way and raise it overhead?

I never promised you anything I couldn't do  
We tried to bury it and rise above, bury it and rise above  
You, you, you never promised me you were seeing differently  
Bury it and rise above, bury it and rise above

You, you  
You bury it, bury it, bury it and rise above /4x

I never promised you anything I couldn't do  
We tried to bury it and rise above, bury it and rise above  
You, you, you never promised me you were seeing differently  
Bury it and rise above, bury it and rise above

You, you  
You bury it, bury it, bury it and rise above /4x
