

# CHVRCHES, How Not To Drown (ft. Robert Smith)

I am writing a book on  
How to stay concious when you drown  
And if the words float up to the Surface  
I'll keep them down  
This is the first time i know  
I don't want the crown  
You can take it now

You promise the world  
And brought me  
It hanging form a string  
Stuck in my mouth  
Into my throat  
Told me to sing  
That was the first time i knew  
You can't kill the king  
And those who kiss the ring

Tell me how  
It's better when the sun goas down  
We will never escape this town  
I wasn't scared when he caught me  
Look what it taught me  
Tall me how  
It's better if i make no sound  
I will never escape these doubts  
I wasn't dead when they found me  
Watch as they pull me down

I am a chapter on what to do after they dig you up  
On what to do after you grew to hate what you used to love  
That was the first time I knew  
They were out for blood  
And they would have your guts

Tell me how  
It's better when the sun goas down  
We will never escape this town  
I wasn't scared when he caught me  
Look what it taught me  
Tall me how  
It's better if i make no sound  
I will never escape these doubts  
I wasn't dead when they found me  
Watch as they pull me down

Watch as they pull me down  
Watch as they pull me down  
Pulling me down  
Dead when they found me  
Watch as they pull me down  
Watch as they pull me down  
Watch as they pull me down  
Watch as they pull me down  
Pulling me down  
Dead when they found me  
Watch as they pull me down

I am writing a book on  
How to stay concious when you drown  
And if the words float up to the Surface  
I'll keep them down  
This is the first time i know  
I don't want the crown

You can take it now  
You can take it now  
You can take it now
