

# Ciara, Greatest Love

it's greatest Love  
it's greatest Love  
it's greatest Love

you're the greatest love I ever seen  
where you are I'm gonna be  
to top it off  
you been there for me  
never change your energy  
cause only you got what I need  
I'll give you everything you need  
I'll ride for you  
I would do anything  
bleed, I'd die for you

from the first day that I met you  
it was special  
there was something different about you  
had to pray fore  
fore I jumped into it head first  
ain't an expert but I know  
I never, ever felt like this  
never, ever been held like this  
never, ever met nobody like this  
I should've known when you took my son as your own  
I ain't saying I ain't like all the carats and the stone  
it's just for your love  
that I want  
now it's me and you against  
against the entire world  
the entire world

I see our love when I look at our baby girl  
I'm a lucky girl
