

Ciara, Greatest Love

it's greatest Love
it's greatest Love
it's greatest Love

you're the greatest love I ever seen
where you are I'm gonna be
to top it off
you been there for me
never change your energy
cause only yu got what I need
I'll give you everything you need
I'll ride for you
I would do anything
bleed, I'd die for you

from the first day that I met you
it was special
there was something different about you
had to pray fore
fore I jumped into it head first
ain't an expert but I know
I never, ever felt like this
never, ever been held like this
never, ever met nobody like this
I should've known when you took my son as your own
I ain;t saying I ain't like all the carats and the stone
it's just for your love
that I want
now it's me and you against
against the entire world
the entire world

I see our love when I look at our baby girl
I'm a lucky girl
