I know you and her got something goin on, and I respect that, but you gotta admit, there's something

[Verse]

Everything I want, you got it,
And I must admit that I'm..excited,
That girl aint right for you,
See I'm the type for you,
And what I'd like to do is chill...Feel me?

So let a girl be down and come kick it with me,
No time to play around cus I'm for real baby,
I'm Feelin everything you do,
You know that you're feelin' this too,
So lets..keep it real..
Cus I dont..

[Chorus (twice)]

I dont care about them other chicks,
I wanna be the one only one that can get close to you,
I dont care about them other chicks,
Cus they aint gonna do all the things Ima do for you,
I dont care who you dealing with,
Just let em know that you found a girl who gone be down for you
So forget about them other chicks,
Just forget about them other chicks.
