

Ciara, Overdose

I took your love, think I took too much
Somebody call the doctor
Somebody call the doctor doctor (doctor)
I took it all, but it's not enough
Somebody call the doctor
Somebody call the doctor doctor (doctor)

Don't never never never let go
Don't never never never let go
Hold me tight, I'm coming down
I need your love and I need it now
Don't never never never let go
Don't never never never let go
Somebody call the doctor before I overdose

I'm turnin' crazy, actin' funny
Cardies I just from but I want some more
I hope your kisses and your gentle touch
Come on, take me up 'cause I need the rush
Let me fall, let me fall, baby let me drink
Can't breathe, can't breathe, gettin' out tonight (I like that)
Got my heart beat pushin', not slowin' down
Got me swingin' and shakin', I'm freakin' out

I took your love, think I took too much (ooo)
Somebody call the doctor
Somebody call the doctor doctor (doctor)
I took it all, but it's not enough
Somebody call the doctor
Somebody call the doctor doctor (doctor)

Don't never never never let go
Don't never never never let go
Hold me tight, I'm coming down
I need your love and I need it now
Don't never never never let go
Don't never never never let go
Somebody call the doctor before I overdose
