

# Citizen Soldier, Talk Me Down

It's 3am again  
My mind is caving in  
But no one's listening  
But no one's listening  
Bottles of medicine  
My closest ... a friends  
'Cause no one's listening  
'Cause no one's listening

I'm on the edge of a crisis  
But what should I make a sin  
Is there any reason to fight this?  
If nobody's losing sleep

My life's a ledge right now  
Nobody knows about  
There's no one to talk me down  
There's no one to talk me down  
So sick of reaching out  
Silence is getting loud  
With no one to talk me down  
With no one to talk me down

No one, no one to talk me  
No one, no one to talk me  
No one, nobody to stop me  
No one, no one to talk me down

These fights strike me away  
Down to the darkest place  
But no one's listening  
But no one's listening  
People I have to chase  
[?] not worth the pain  
'Cause no one's listening  
One more pill and listen

My life's a ledge right now  
Nobody knows about  
There's no one to talk me down  
There's no one to talk me down  
So sick of reaching out  
Silence is getting loud  
With no one to talk me down  
With no one to talk me down

Outrun to call in a crisis  
Nobody's listen me  
Is there any reason to fight this?  
If nobody's listen me

My life's a ledge right now  
Nobody knows about  
There's no one to talk me down  
There's no one to talk me down  
My life's a ledge right now  
Nobody knows about  
There's no one to talk me down  
There's no one to talk me down  
So sick of reaching out  
Silence is getting loud  
With no one to talk me down  
With no one to talk me down

No one, no one to talk me  
No one, no one to talk me  
No one, nobody to stop me  
No one, no one to talk me down
