

CL, Wish You Were Here

Lately i've been thinking about us
Blowing smoke in the air
Listening ot Stevie
Not enough uppers
Too many downers
Got my mind taking dares
And sleeping ain't easy

Cuz it's been 6 months since
I las saw you
But i hope you're okay
Can't believe you went form mother to angel
In the space of a day
Can't help but Wonder

What does you life look like
Without me there?
Without me there?
Do i still cross your mind
Without me there?
Without me there?
Is heaven all we thought it'd be
Can you still hear my voice now
Are you watching down on me
When all i see is stars
What does you life look like
Without me there?
Wish you were here

Maybe i was stoo uptight
Remember when you would call
Just to say taht you love me?
Honestly everything 's alright
It's just me and my thoughts
Dob't you worry about a thing

And it might be late
Wherever you're dreaming to the playlist we made
A bit of old school jazz
And our favourite Stevie
I know some things don't chnge
But i still Wonder

What does you life look like
Without me there?
Without me there?
Do i still cross your mind
Without me there?
Without me there?
Is heaven all we thought it'd be
Can you still hear my voice now
Are you watching down on me
When all i see is stars
What does you life look like
Without me there?
Wish you were here
