

Clan Of Xymox, Sing A Song

You say, one of these days
My name will be over the place
You wait, you will see
My face on the TV screen
On the cover of a magazine
Driving round in a limousine
You hear my tune on the radio
Played on every stereo

Sing a song to sing along, along, along
It's in my head is all you said
It's in my head is all you said
Sing a song to sing along, along, along

You see, my point of view
Fame is for the lucky few
On the cover of a magazine
Driving round in a limousine
I guess you took too much for granted
Take a good look if you want to be wanted
You're never too young to getting started
When you grow old you will be daunted

Sing a song to sing along, along, along
It's in my head is all you said
It's in my head is all you said
Sing a song to sing along, along, along

Go for the kill, go for the kill

Sing a song to sing along, along, along...
