

# Clannad, Tower Hill

Clannad - Magical Ring (1983)

Lookin' round and round again

That's me, oh that's me

Far away on my own again

A day goes by in Tower Hill

Silence sweet

Is there someone at the door?

Light is on, lit fire round

It's me, you're home

Blue and grey, and seas apart

Another night at Tower Hill

Silence sweet

Is there someone at the door?

Silence sweet

Silence sweet

Is there someone at the door?

Sit inline and count to ten

Still near, right here

Movin' round this empty room

I'm sorry now, at Tower Hill

Silence sweet

Is there someone at the door?

~~~

Tower Hill (the Bad Transcript version)

-----

Looking around and around again [no "uh" sounds!]

That's mean, oh that's mean [what exactly would be "mean"?]

Far away on my own again

At Gagans Rye(?) and Tower Hill [you're kidding... "Gagans Rye"?]

Silence sweet

Is there someone out there too? [in addition to who?]

Lies on on the twilight [Clannad does NOT use double-words]

It's me, you're home

Blue and grey, in season art [oh yeah, that's close... where's the "P"?]

Another night at tower hill

Silence sweet

Is there someone out there too?

Silence sweet

Silence sweet

Is there someone out there too?

Stay in line and count to ten

Still here, right here

Moving round the center [center- what? center "oom"? NO!]

I'm sorry now, at Tower Hill

Silence sweet

Is there someone out there too?

~~~

Tower Hill (the All-Your-Base version)

Far away on the phone again

At Gagans Rye(?) and Tower Hill
