

Clay Crosse, I Found Myself In You

So many years, so confused
Wondering where I'm goin' to
Roads with no signs
Dreams left behind
Nothing made sense without you
Now that you're here, I understand
Now it's clear who I am
It's like coming home
A child, but full grown
The whole world familiar yet new

Chorus:

I have been searching for such a long long time
I have been missing something in my life
Lord I was lost, 'til you pulled me through
I found myself, I found myself in you

Never belonged, or wanted to
But now I belong forever to you
You've made me see, all I can be
You put your faith in me

Repeat Chorus

Shown me
You know me
Better than I
Have been searching for such a long long time
I have been missing something in my life
Lord I was lost, 'til you pulled me through yeah

I found myself
I found myself in you
I found myself in you
I found myself in you
