Clay Crosse, I Found Myself In You

So many years, so confused Wondering where I'm goin' to Roads with no signs Dreams left behind Nothing made sense without you Now that you're here, I understand Now it's clear who I am It's like coming home Achild, but full grown The whole world familiar yet new

Chorus:

I have been searching for such a long long time I have been missing something in my life Lord I was lost, 'til you pulled me through I found myself, I found myself in you

Never belonged, or wanted to But now I belong forever to you You've made me see, all I can be You put your faith in me

Repeat Chorus

Shown me You know me Better than I Have been searching for such a long long time I have been missing something in my life Lord I was lost, 'til you pulled me through yeah

I found myself I found myself in you I found myself in you I found myself in you
