## Clean Bandit, Extraordinary (feat. Sharna Bass)

You can see there's something in the way I've tried to show you, my door is open I don't know how much more I can take Since you've chosen to leave me frozen

Am I the only one who sees what you've become? Will you drift away? We're running out of time, two wrongs can make it right Could I make you stay? People making choices they call vague Sacrifice it all and baby, say

Something extraordinary, something real To fill my days and nights with something that I can feel I'm not gonna compromise, surely you can simplify Say you feel the same

You've wandered down the path I can't explain Have you seen her? The grass is greener To let me pass you by would be a shame If she's your only, then why are you lonely?

'Cause I'm the only one who knows the things you've done I'm so good for you We're running out of time, two wrongs can make it right Could I make you do?

Something extraordinary, something real To fill my days and nights with something that I can feel I'm not gonna compromise, surely you can simplify Say you feel the same

Just don't say it will be alright You're not holding yourself in your arms tonight Don't say it will all be fine In only a moment you'll say goodbye

Something extraordinary, something real To fill my days and nights with something that I can feel

Something extraordinary, something real To fill my days and nights with something that I can feel

Just don't say it will be alright You're not holding yourself in your arms tonight Don't say it will all be fine In only a moment you'll say goodbye
