Clean Bandit, Mozart's House

So you think electronic music is boring?
You think? It?s stupid?
You think it?s repetitive?
Well? It is rep-repetitive
I don?t know, skip a beat
I don?t know, skip a beat
I don?t know, skip a beat
I don?t know, skip a beat
We use special tricks
With the computer
?
I don?t know, skip a beat
Why must I say it when I hate to speak
I said I don?t know, skip a beat
Cos my wife to dance got to their feet
I said I don?t know, skip a beat
Wanna be a social but I hate to creep
I said I don?t know, skip a beat
Scared of heights but I gotta leap
I said I don?t know, skip a beat
Cos I?m leaping for the stars
No clothes, I?m far from far,
If I won?t try, I won?t go
I?ll never leave, I won?t go
Can?t believe it, I won?t go
No, not far
?
Move your left, move your right
I kept it in my head and I kept trying to fight
I said mmm move your left, move your right
Come a little closer if you like the limelight
I said mmm move your left, move your right
I want to surround and keep your here in my sight
I said move your left, move your right
Getting abuse ?cos everyone?s taking all their time
They chase and flex the beat, it?s on my mind
Moves like that aren't cool, or even crime
Now they one-handed, won?t land it
Won?t stand it - rebranded
?
Here?s a toucho, pizzicato
Relax the tempo
Sips some movato
And if I get too animato
Tan my face with that paggiato
Aliente, mezzoforte, allegro or andante
I can make this voice, da-da-to one two - music for legato
I don?t know, skip a beat
We?re rushing now, we?re building heat
The doors are open, but the music?s in time
Is this the place, the final round
Cruising at the speed where where consider
Watching the beat, we?ll get to Vienna
Without a doubt, the strings are fine the bass is out
Give us a beat, you wrote this house

Couple of skip beats, a couple of movements ow, now we made it to Mozart?s House
Couple of skip beats, a couple of movements ow
Couple of skip beats, a couple of movements ow
Couple of skip beats, a couple of movements ow
This is Mozart?s House
So you think electronic music is boring?
