

# Clear Vision, She Killer (Spears Mix)

I will kill you if you cry  
If only I could get it right  
I will smash the thing inside  
This would be my heroes night

I would like to switch you off  
I wish I could burn you down  
It is always in my head  
And it turns me round and round

I will kill you if you cry  
If only I could get it right  
I will smash the thing inside  
This would be my heroes night  
I will fuck you if you smile  
And I will hurt you for awhile  
I will kill you from inside  
This will be my heroes night

I let no one fuck with me  
I let no one shoot me  
I don't even know your name  
But I hear your beautiful scream
