

Cleo, Number One (ft. Weronika Juszcak)

let's get together
we own tonight
best friends forever
we 2 for live
nothing can't stop us
we hold the keys
livin' in the dream
but it's all for real

we're forever young
looking for some fun

when i am with you
i am the one
you're my shining sun
lighting up teh dark
together we can light that spark

let's get together
we own tonight
best friends forever
we 2 for live
nothing can't stop us
we hold the keys
livin' in the dream
but it's all for real

all around the world is changing
but you're my numer one
my only one
you're the only one that's not faded
my numer one, one
my numer one, o, o!
all around the world is changing
but you're my numer one
my only one
you're the only one that's not faded
my numer one, one
my numer one, o, o!

[Weronika Juszcak:]
I am just so lucky to have you here
Everything works when you are near
Sun shines oraz rain we so much in
Nothin can stop or come between

when i am with you
i am the one
you're my shining sun
lighting up teh dark
together we can light that spark

all around the world is changing
but you're my numer one
my only one
you're the only one that's not faded
my numer one, one
my numer one, o, o!
all around the world is changing
but you're my numer one
my only one
you're the only one that's not faded
my numer one, one
my numer one, o, o!
