

# Clinic, Free Not Free

From the front to in the backyard  
Someone fronted on the war tales(?)  
When the home is in the mirror  
When the home is in the big smile

Give it learning(?)  
cap out share it(?)  
see it all before your eyes  
sup it  
cup it  
pity poor  
free not free  
a belly full of glee  
you live here for your own(?)  
and make it known

See yourself outside your skin, yeah  
See yourself outside you for miles  
When the hoax is in the mirror  
When the hoax is in the big smile

Give it learning  
cap out share it  
see it all before your eyes  
sup it  
cup it  
pity poor  
free not free  
a belly full of glee  
you live here for your own  
and make it known

Give it learning  
cap out share it  
see it all before your eyes  
sup it  
cup it  
pity poor  
free not free  
a belly full of glee  
you live here for your own  
and make it known  
we'll make it known  
we'll make it known  
we'll make it...
