

CLOCK MACHINE, Wonderland

Body of angel
And face not worse then that
I can't believe she is now with me
In the middle of the night
I swear the girl is very hot
Oh yes she's making me so crazy
But hey I'm afraid that
I'm not as good
As I should be here tonight
Go on and love me
She's taking off my hat
And when I'm trying to kiss
She's saying to me "crazy night"
I think I'm ready to show her what I've got
The demon of sex I'm hiding inside of my pants
Let me show you the way to the wonderland

One step inside the cave
Makes a man a little braver
Are you ready to share adventure
And face your animal nature
What, what are you waiting for?

Back with the power
I never thought I had
Sometimes I think that it's over
But the life supprises me once again
And then I'm getting back to the game
The game of passion turns me on
And I cannot escape
Show me the way to wonderland
Show me the way to wonderland
Show me the way to wonderland

One step inside the cave
Makes a man a little braver
Are you ready to share adventure
And face your animal nature
What, what are you waiting for?

One step inside the cave
Makes a man a little braver
So are you
You ready to share adventure
Face your animal nature
What, what are you waiting for?

[Go on
Show me the way to the wonderland
Come with me
Take my hand
And let's fly away
You think you ready
I think I am]
