

Close To Home, Sleepless In Cincinnati

Here we are out on the road with my friends,
We're having fun, but when the sun sets
I'll be finally home to see you again

I know it takes just a little bit of time,
But I swear well make it if we try,

So say goodnight and wipe those eyes.
Six more weeks and I'll be by your side,
It's never been, never been too easy
For me to be this far away and oh I swear
These sleepless nights are gonna be the death of me

I toss and turn all through the night,
I dream of you, but when I open my eyes,
You start to drift so far, so far away from me

These dreams are all that get me through,
With a thousand miles between me and you,

So say goodnight and wipe those eyes.
Six more weeks and I'll be by your side,
It's never been, never been too easy
For me to be this far away and oh I swear
These sleepless nights are gonna be the death of me

You don't know whatcha got till it gone
You don't know whatcha got till it gone
You don't know whatcha got till it gone

I know this is not what you'd hoped for me,
It's not ideal but it's the way it has to be.

So say goodnight and wipe those eyes.
Six more weeks and I'll be by your side,
It's never been, never been too easy
For me to be this far away and oh I swear
These sleepless nights are gonna be the death of me

These sleepless nights are gonna be the death of me
