

Close Your Eyes, xChet Steadmanx

Just wake up!
Stop living like there is no hope
We know what you're going through we've been there before
I never thought that I would see you like this
All alone covering up yourself

You think that there is no one left who can get you out of your mess
But I will be right here until the bitter end

Step back!
Take a look around
You are the only one that can change where you're at
Just make the best of every moment
Or you will get left behind

You think that there is no one left who can get you out of your mess
But I will be right here until the bitter end

I am here for you!
And you are here for me too!
We will be right here until the bitter end!

Just get up, my friend.
This is your time and you know I'll be there for you.
Just get up, my friend.
This is your hope, your reason to live!
I'll be there for you.
