

# Cobra Starship, Angie

Angie I know you  
I said you know it's true  
Please don't ask me to believe  
Baby I got you  
Cos I always knew  
You were just having fun, having fun  
You got it all  
And I just really gotta know  
What more can I say?  
I just wanted to believe that there was room for me  
Oh oh oh no  
You just wanted to play  
Oh oh oh no-oh  
I give you all I got  
Angie can't we just find a way?  
Say no more say no more  
Angie please don't tell me no  
And I ain't mad  
Cos you know I understand  
You know I understand  
Angie, Angie  
Angie I know you  
You know it's true  
Please don't ask me to believe  
Baby I got you  
Cos I always knew  
You were just having fun, having fun  
So here's the thing  
Yeah you know that I'm a man  
Who can understand  
The way it's gotta be  
If you need room to breathe  
Oh oh oh no  
You still ask me to wait  
But I can't wait forever  
Angie can we make it today?  
Say no more say no more  
Angie please don't tell me no  
And I ain't mad  
Cos you know I understand  
You know I understand  
You're just having fun, having fun  
Say no more say no more  
Angie please don't tell me no  
And I ain't mad  
But you know I understand  
You know I understand  
Angie, Angie  
Angie can't we just find a way?  
Say no more, say no more  
Angie please don't say no
