Cobra Starship, Angie

Angie I know you

I said you know it's true

Please don't ask me to believe

Baby I got you

Cos I always knew

You were just having fun, having fun

You got it all

And I just really gotta know

What more can I say?

I just wanted to believe that there was room for me

Oh oh oh no

You just wanted to play

Oh oh oh no-oh

I give you all I got

Angie can't we just find a way?

Say no more say no more

Angie please don't tell me no

And I ain't mad

Cos you know I understand

You know I understand

Angie, Angie

Angie I know you

You know it's true

Please don't ask me to believe

Baby I got you

Cos I always knew

You were just having fun, having fun

So here's the thing

Yeah you know that I'm a man

Who can understand

The way it's gotta be

If you need room to breathe

Oh oh oh no

You still ask me to wait

But I can't wait forever

Angie can we make it today?

Say no more say no more

Angie please don't tell me no

And I ain't mad

Cos you know I understand

You know I understand

You're just having fun, having fun

Say no more say no more

Angie please don't tell me no

And I ain't mad

But you know I understand

You know I understand

Angie, Angie

Angie can't we just find a way?

Say no more, say no more

Angie please don't say no
