

Cobra Starship, Never Been In Love (ft. Icona Po

Hey! Tell me if I'm crazy
But when you come around-round
It's kind of amazing
My head goes through clouds
Above the rain and
I'm never comin down-down
Now that you saved me, baby

That stupid party talked outside
Walked to your place stayed up 'til 5
You'd never think a random night could change your life!

I know now I've never been in love before
I know now I've never been in love before you
Na na na na na (ooh ooh)

Hey! It's fire and magic
But when you walk away-way
It's like the Titanic
I'm split up into pieces in the Atlantic
So baby won't you stay stay cus I gotta have it, have it

We all need a light in the dark
Come and spend the night in my heart
We all need a light in the dark
Come and spend the night
