

Cochise, Destroy The Angels

With broken wings I cut your skin
It's another sea full of your tears
I suffer more than I need
My world collapsed in your dreams

I know how to destroy the angels
I know how to destroy your love

Inside of you I feel complete
I drink cold milk from your lips
Before we burn in the sleep
Tell me my love what is real

I know how to destroy the angels
I know how to destroy your love

God was made for us
Face to face God

I know I destroy the angels
I know I destroy your love
