

Cochise, Under My Streets

Like a morning star
Like a butterfly
With your open eyes
Kill the other side
Kill the pain you hide
Kill the love you hate
Try to understand
And be my wave

Like a morning star
Like a butterfly
With your open eyes
Kill the other side
When I lost myself
Try to be my friend
Don't forget my name
Under streets of saint

And hold the world outside

She's my world mother
Under streets

You know you're my world
And I pray for you
You know
You go like the sun
You know world she's mine, mine, mine

We're all living under the streets
For our love
For our generation
For our times
And our dreams

We are under my streets
