

# Cochise, White Garden

See you down again  
You're walking in my garden  
So much love around  
Black cats by your side  
You are my secret lion  
Love me like a child  
Love  
Love me girl

See you down the hill  
You're walking with my flowers  
So much blood around  
Take me to your place  
My garden is on fire  
Love me like a spy

Love  
In the white garden  
Love

Love  
I need your love  
Your love  
Like an animal  
Love  
I need your love  
My love  
Like an animal

Love  
In the white garden  
Love
