

# Colbie Caillat, Midnight Bottle

Midnight bottle take me come with me my memories and everything come back to me  
Midnight bottle make it real what feels like make believe so I can see a little more clearly  
Like every single move you make kissing me so carefully on the corners of my dreaming eyes

I've got a midnight bottle gonna drink it down  
A one way ticket takes me to the times we had before  
When everything felt so right  
If only for tonight I've got a midnight bottle gonna ease my pain  
From all these feelings driving me insane  
When I'm with you and everything's all right if only for tonight  
Got a midnight bottle drifting off into the candlelight where I can find you in your time  
A midnight bottle I forgot how good it felt to be in a dream just like you had me  
Cuz lately I've been stumbling feels like I'm recovering  
But I think it's only for tonight

I've got a midnight bottle gonna drink it down  
A one way ticket takes me to the times we had before  
When everything felt so right  
If only for tonight I've got a midnight bottle gonna ease my pain  
From all these feelings driving me insane  
When I'm with you and everything's all right if only for tonight  
If only for tonight, if only for tonight, if only for tonight

I've got a midnight bottle gonna drink it down  
A one way ticket takes me to the times we had before  
When everything felt so right  
If only for tonight I've got a midnight bottle gonna ease my pain  
From all these feelings driving me insane  
When I'm with you and everything's all right if only for tonight  
If only for tonight, if only for tonight, if only for tonight
