Cold, Blame

I can't stand up from all this pain And everyone loves a sickened game And all these pills make my uncle rain Sun has burned up and gone away Well everytime you used to fall (Blame me again)

Èveryone

(Blame me again)

Makes you sick

(Blame me again)

You're a shame

(Blame me again)

Trapped inside, hailed a common name And everyone loves a sickened game

Always drunk when I feel betrayed

Sun has burned up, gone away

Well everytime you used to fall

(Blame me again)

Èveryone

(Blame me again)

Makes you sick

(Blame me again)

You're a shame

(Blame me again)

Ì-spoken words- ĵ

I said can you come from this place

I said Superman, he's not even here

Can you come from this love

I said Superman, he's not human here

Can you come from this world

I said Superman, he's not even here

Can you come from this love

I said Superman, he's not human here

Calm him down, calm him down

Calm him down, calm him down

Coming down, coming down

Coming down, coming down
