

Cold, Send In The Clowns

They kept on coming down to this place
Cause I could see it in their eyes
They made the world a fucking disgrace
Made everything burn cold
They kept on coming down to this place
Cause I could see it in their eyes
We took the world to heal the disgrace
Now everything burn fine

I'm talking about the ever changing
Winds of fame
I guess it just got cold in here
It comes full circle
Never ever changed our ways our
Little pill killed summer days
I guess it just got cold in here
It comes full circle

Send in the clowns
Well here come the clowns
